## Big Plane Blows 4 Tires But Crew Escapes Injury

Serious accident and injury were averted late yesterday when an RCAF North Star aircraft attempting a landing on three of its four engines, blew out four tires and skidded off a runway on Edmonton airport.

The accident, which took place shortly before six p.m., was caused when pilot of the craft, Squadron Leader Howard Morrison, of Rockcliffe, applied full brakes to cut speed of the fast-moving aircraft after it touched the ground.

**FOUR TIRES BURST**  
All four tires of the landing gear burst, causing temporary loss of control of the big plane.

The plane had been on a flight from Whitehorse during which one of the craft's Rolls Royce engines died. The big transport was carrying a crew of six. It was on a return flight to its base at Durval, Quebec.

Several Edmonton motorcycle policemen and service police from the RCAF station rushed to the accident scene to keep back crowds which flocked to the field from Kingsway avenue.

**TO CONTINUE TRIP**  
The aircraft's four-landing tires were replaced by crews working late last night. They also repaired minor trouble in the North Star's number three engine.

The plane appeared to continue its flight to Quebec today.

## N.Y. Tunnel Being Cleared

NEW YORK, May 14.—(AP)—Builders scraped through debris and matted wreckage today to clear the blast-scarred Holland tunnel for its daily flow of 40,000 cars and trucks.

A big truck, rolling toward New York with a cargo of chemicals, blew up yesterday. It sped first and poisonous gas through 300 feet of the traffic-clogged tunnel.

Normal vehicle traffic may be resumed tomorrow morning. Austin J. Tobin, executive director of the New York port authority, said after an inspection today that the New York-bound tube will be restored to service "in the earliest tomorrow morning and at the latest, today."

Tobin said the tube will be closed from 10 to 12 hours a night for two to three days for cleanup work. Damage may total \$1,000,000. The New Jersey board of fire wardenes five hours after the accident.

# Change in Winds Raises Dike Leak Worrying Called Tough On Teeth

## Dike Leak Increases Flood Fears

### 24-Hour Patrols Watch Waters As Fear Grows

VANCOUVER, B.C., May 14.—(UP)—The rising Fraser river seeped through a dike today, spilling two inches of water over five acres of farmland near Glen Valley, 40 miles east of Vancouver, B.C.

A river was being sent down on the dike of the dike to plug the dike.

Drying authorities said there was no danger to the dike. Under a cloudless sky, with sunshine sweeping the Fraser Valley, where last year's floods caused millions of dollars damage to crops and farmland, the river rolled to higher levels during the day.

The level at Mission, 40 miles east here, rose 25 inches during the day to 16 ft, and is expected to reach "maximum flood stage" by tomorrow. The minimum is 14 ft.

**24-HOUR PATROLS**  
Patrols will be on a 24-hour basis along the miles of defense works.

"I have every confidence we can meet flood conditions on the Fraser," said J. E. Carwell, chairman of the Fraser Valley Diking Board.

"If freakish weather continues, however, for a long time anything may happen."

Floods in British Columbia last year caused damage estimated at \$200,000,000.

Since then, millions of dollars have been spent in rehabilitation and in building new, higher dikes.

**RUSH FLOOD WALL**  
At Mission, here, high by the 1949 flood, a race against rising water is in progress. A flood-wall is being built along the dike to protect the town and farm property.

Plains floods have been reported in the Similkameen Valley, 40 miles east of Vancouver, where the Similkameen and Thompson rivers were in flood. Lowland farmers in the Okanagan Valley and in the Prince Rupert district, 500 miles to the north, also are in danger of flooding.

The Fraser valley is the largest of the flood-prone areas, but no serious flooding has been reported.

## Worrying Called Tough On Teeth

VANCOUVER, May 14.—(CP)—If you want to keep your teeth where they belong—and not in a glass of water—just stop worrying.

It seems we're becoming a nation of teeth-gritters.

That's the advice of Dr. Merrill G. Swenson of the University of Oregon. He was a speaker yesterday at the 33rd annual convention of the British Columbia dental association.

Word teeth-gritters, he said, are motorists. But just how you're going to stop worrying, Dr. Swenson doesn't know. He isn't worrying about it. He wants to preserve his teeth.

## Builders Seek Action On Cement Shortage

Gravity of the cement shortage which faces Edmonton has prompted the Edmonton House Builders' Association to send a wire to Prime Minister Louis St. Laurent asking for immediate action.

Telegram said "Edmonton House Builders' Association is seriously alarmed by the probable results of the impending strike in the cement industry. Work on the construction of offices, factories, hotels, oil wells, farm buildings, highways, bridges and thousands of desperately needed houses will come to a standstill in a few days."

**NATIONAL EMERGENCY**  
"Plans for new construction are already being abandoned in Edmonton. This is a national emergency, and we call on you to take immediate action to see that the cement industry continues in operation."

A check on construction and lumber companies in Edmonton reveals that cement is extremely scarce, with some companies unable to supply at all.

There is only one cement manufacturer in Canada, at Exshaw.

Det. Inspector W. E. Bray of Scotland Yard accompanied immigration and port officials in a tender which met the Hatterly when it steamed into Southampton waters and dropped anchor.

**ON HIGHWAY**  
Sixteen-year-old Ralph Bush of Red Deer was killed at midnight last night when struck by a truck while he was cycling just north of the town. He died almost immediately of a broken neck and multiple injuries.

Police arrested a 27-year-old Edgar Oldier of Calgary south of Red Deer and are holding him pending charges of manslaughter.

Deer, which will be held at Red Deer this afternoon.

A U.S. embassy spokesman, who said the United States wants to extradite Ristler, said this would require the British government to hold ship in British legal waters. This presents legal and diplomatic difficulties unless he agrees to leave the ship.

## Volunteers Fight To Gain Control

Shifting winds which sent raging forest fires back toward burned-out areas gave weary fire fighters some hope today as they battled the worst blazes in Alberta's history.

Winds which a day ago whipped the blazes into violent flames, now have greater chance of being tamed under control, forestry officials said.

**450 BATTLE FLAMES**  
Fires were driven back to areas where the 450 volunteer fire fighters have greater chance of being tamed under control, forestry officials said.

In the Slave Lake district one serious fire is now burning toward highways and railroad right of ways it swept over earlier in the week.

Forestry officials believe fire fighters, aided by a more favorable position, may bring the blazes under control today.

**PROGRESS REPORT**  
Progress is also being made on fires at Sturgeon Lake, Calling Lake, Lac La Biche and Chip Lake.

At Sturgeon Lake a blaze, which started Tuesday afternoon, today, is now under control. Emergency relief station to aid fire fighters will be set up today as near as possible to the Canyon.

At Sturgeon Lake, where flames drove 25 families from homes, one incident today.

**RED CROSS ASSISTANCE**  
Red Cross assistant com. Robert Muir, A. H. Shenfield, provincial chairman of the Cross disaster service, and several nurses will leave Edmonton today to set up the station.

"Trucks of supplies will go with them, and new supplies will be available on short notice."

Meanwhile, new fires, not as serious, were reported at Sturgeon Lake, one incident today.

At Edmonton division, between Edmonton and Edmonton, a small fire on the east property is under control. Two others in the area, are being fought by volunteer crews, and may be brought under control.

**FURTHER OUTBREAK**  
A crew of 25 men was rushed to a new fire outbreak west of Peace River.

Another new fire struck the Slave Lake district near Smith, but is being fought satisfactorily by 10 men using a bulldozer.

If the wind shifts, direction, there will be a fair chance of bringing most of the fires under control this weekend, K. S. Huxton, director of forestry, said today.

"We are in good luck, but a change in wind direction or high winds could make the fire menace as bad—perhaps worse than it has been."

## Seat Collapse Injures 12

INDIANAPOLIS, Ind., May 14.—(AP)—Twelve persons were injured today when a section of a grandstand collapsed at the Indianapolis Motor Speedway.

The stand, an old wooden structure on the southwest turn of the 2½-mile track, was crowded with about 5,000 fans watching the opening of qualification trials for the May 30 race.

Joe Quinn, safety director of the Speedway, said the injured persons fell through the floor of two boxes.

The statue, giving the West Berlin powers a formal statement saying legislative and administrative powers, is similar to the one under which the Western Powers will supervise the future West German state.

**ACCEPTANCE NEEDED**  
At a press conference explaining the statute, Western spokesmen said Russia would have to accept it in order to return to the allied command. The Soviets walked out of the conference last night.

The statute actually was written by "greater Berlin," which would include the Soviet sector. It will affect only the three western sectors unless Russia decides to come in on it.

**Mass Demonstrations Banned In Italy**  
ROME, May 14.—(Reuters)—The Italian government last night banned all mass demonstrations throughout the country. The ban affects all parties.

## Roar of Artillery Rocks Tense City of Shanghai

SHANGHAI, May 14.—(AP)—Two Communist wedges today plunged closer to Shanghai's heart. The thunder of artillery resounded through the tense city.

The roar of a battle less than 20 miles to the north rolled over Shanghai's lifeline to the sea, all the way to Wusong. It is the fiercest guarding the confluence of the Yangtze and the Yangtze.

**AIRPORT IN PATH**  
TO THE SOUTH of Shanghai, another Communist thrust drove within 20 miles of the city's airport.

In the path, less than 15 miles away, was Lunghua airport. This is the last air link between the city and the outside world.

Brigades in Shanghai were given a final evacuation warning. Deadline for passport clearance was fixed for 8 p.m. tomorrow.

There was no new warning to Shanghai. The United States consul-general said all who intended to leave had gone.

Two American ships and a Norwegian vessel sailed down the narrow Whangpoo last Wednesday to the open sea at the heading of big guns to the north reverberated over the last afternoon clash.

Gen. Tang En-po, Nationalist regional commander, cancelled a press conference scheduled for tomorrow. There was no explanation.

**LAST-DITCH DEFENSE**  
On Shanghai's western outskirts, Nationalist troops ripped apart Chinese villages to clear a last-ditch defense line. But the ill-directed activity seemed to make no sense. Most responsible persons felt the Reds will march on Huang-poo road without firing a shot.

Fighting in the whole Shanghai area was confined to fluid. At some points the Reds appeared to be into the city's main defense line.

Judge T. L. Cross, in handing down his judgment, said he had found "No wrong or wrongdoing on the part of Norman Forhan either before or after his election as councillor." However, he said Mr. Forhan was not eligible as a councillor due to a technical breach of the Alberta Town and Village Act. He said Mr. Forhan was not the owner of land in the village of Belleville as required under the act.

The discussion on the motion to install a bar in the hall was laid over for later consideration.

The main item in the business session was an address by Commander Bill Williams, secretary-manager of Montgomery Post of Edmonton. He outlined the methods used in developing his home branch and stressed the importance of striving for the bettering of veterans' conditions. ### Jim Winters 108 Years Old

WETASKIWIN, May 14.—Wetaskiwin's Grand Old Man, Jim Winters celebrated his 108th birthday very quietly last Thursday at the Eventide Home in this city.

Winters must be much more than 108 years old. He was born in the old British Columbia and is the oldest living man in Alberta, perhaps in all of Canada.

Many of his old friends paid to call their respects to him. Mr. Winters was pleased to chat with them all. He is a little feeble on his feet, but still enjoys his pipe of tobacco and likes nothing better than to read the news.

Jim was born in Atlanta, Georgia, May 5, 1841. He served in the army of the South in the civil war, and later worked in Michigan lumber camps. He homesteaded in North ern Ontario and finally came west to Calgary about 1900. Later he moved to Wetaskiwin and lived there until he moved into Wetaskiwin.

About two years ago he went to the Eventide Home and has been a resident there since that time.

## Clairmont Farmers Prove Good Neighbors

GRANDE PRAIRIE, May 14.—Twenty tractors took the place of the fabulous 20-man team on the farm of Mr. and Mrs. Clem Walker, of Clairmont, for the entire day of May 10.

Mr. Walker, who is ill, was unable to attend to the seeding of his half section located on the south side of Clairmont Lake, and the Clairmont branch of the Canadian Legion organized the farmers of the district to plant his crop.

In the early morning, community minded farmers within a radius of 20 miles converged on the farm of Mr. Walker with tractors, trucks and combines, and the seeding was completed in two days.

Before the day had scarcely begun, 20 tractors had arrived on the scene. The services of several other tractors had to be turned away, as they were not qualified for the work.

Gat, oil and fuel were all donated by each individual. The noon time meal, a three-course banquet, was served by wives of the farmers in the Clairmont Legion Hall. Mid-afternoon lunch, a hearty meal for an average person, was served to all members of the crew as they passed the chuck wagon.

Before sundown, forty-odd community minded farmer members of the Clairmont Canadian Legion had put in a complete half section of oats, wheat, barley and summer fallow—truly a spirit and effort of co-operation second to none.

Professor Rudolf Ekstein, formerly of Hays University, will be guest speaker at Strathcona Baptist Church Sunday morning and First Baptist Church in the evening.

Professor Ekstein is a graduate of Colgate-Rochester University and was teacher of New Testament at Hays until driven out by the Russians. As a leader in the Latvian Baptist Church he represented that country at the Baptist World Alliance in Copenhagen. As a refugee in Europe he ministered to displaced persons in various camps.

Prof. Ekstein has been brought to Canada by the Baptist Union of Western Canada to give leadership in the work among displaced persons.

## Price Andrews Ltd. Get New Addition

Modern Plant Will Serve  
Increasing Motor Trade

Edmonton's leading automotive and repair service, Price Andrews Ltd., at 10036-42 104 street, has opened a new business extension to handle growing Alberta motoring demands.

Modern equipment and competent staffing at Price Andrews is planned to serve motorists with efficiency, quality and speed.

To the well known red-brick plant on 104 street, the firm has added a 66x132-foot matching ex-

tension to house the body and paint shop and truck repair depot. With this addition, the plant can now, at capacity handle at least 50 cars with a layout which provides for easy circulation and a minimum of inconvenience in

BILL STEVENSON

by the time all work is completed. Not only has the plant been extended, but the previous shop is repainted and fitted with much new equipment including a service control tower and inter-office public address system.

A special building has been constructed to house all painting service which will keep the air of the main working quarters free of paint spray.

For the convenience of customers a new parking lot has been cleared next to the plant, with driveways to the road and shop.

Parts department and offices are located at the back of the spacious showroom which front 104 street. Deep chairs and modern check-stands have been provided for

the comfort of waiting customers. The firm boasts staff members who have remained with the company since its opening, an indication of the high plane on which employee-employer relations are maintained.

Price Andrews specializes in General Motors products and is sales headquarters for Pontiac, Buick and Vauxhall cars and General Motors trucks.

General contractor for the new building was J. R. McIntyre. An open invitation to the public has been extended by Price Andrews Ltd., to tour the premises at any time.

## Control Tower Novel Feature

A novelty in the Price Andrews Ltd. garage is a recently installed "control tower" which is the nerve centre of the entire repair and service section.

The system enables the routing of work through the shop, with a minimum of lost time to the customer who may be awaiting important repairs and who appreci-

ates the service of an organization that will speed to the utmost the required work.

The service simplifies the routing. A motorist drives into the garage. Just inside the door of the garage section there is a desk where the list of required repairs is

stated that list is shot through a vacuum carrier tube system to the control tower. Jack Henning knows what work is being done, gets on his intercommunication set and finds out from the mechanics when they can have the job finished. The customer knows with a very few minutes when he can expect to get his vehicle back.

# Military Luxury Denied Germans

## Ex-Soldier Eager to Regain Prestige 'Lost by Hitler'

By William Ross

LONDON, May 14.—(CP)—Germany—the western zone at least—is learning how to do without the luxury of a military class, and there are indications the former soldiers don't like it.

Waters of three aggressive wars in one life-span, the German ex-soldier and NCO's corps already are anxious to refurbish their tarnished prestige, British sources say.

Military collapse after the first World War was explained away by claims that a Socialist revolt, as the home front was "a stab in the back."

### HITLER GETS BLAME

Now they are trying to blame Hitler for the debacle of the second.

There is evidence that not only are they declining responsibility for strategic and tactical handling of the war but also for mistakes committed in the conduct of the German home front.

Gen. Franz Halder, former chief of the German general staff, speaks of the "complete elimination" of Hitler of all military influence in the conduct of the war.

A British investigator, Lt. Gen. J. H. Morgan, says Halder's attitude is followed by all former officers and NCO's, "some passive acquiescence with one German officer you've spoken with them all."

Machinery destroyed. It is an unfortunate aspect difficult to change. But the machinery, which between two wars, defeated the forces of Versailles and kept the two traditional corps together has been destroyed.

Germany after the first World War was allowed an army of 100,000 men. They became an organization capable of immediate expansion into a force of 300,000 men.

of repetition this time. Once army personnel were demobilized and prisoners-of-war returned, their records went to the incinerator. Personnel were dispersed to their home towns and military bonds which tied them together snapped. Demobilization of war installations is almost completed and service equipment has been scrapped. Germany still has no defence forces, no Reichswehr, and has only state and municipal police organized at low level. Police for the entire British zone number 40,000.

RED ZONE DIFFERENT. The same cannot be said of the Russian zone, where a communist indoctrinated German "police force" of at least 200,000 is armed with everything from light automatics to artillery and tanks.

Western military governors say it represents nothing short of the nucleus of a German "red army," calculated to ensure continued domination of eastern Germany once the Russians pull out.

RECORDS BURNED. The Allies are taking no chances. For an army of 40 divisions plus headquarters and administrative staffs.

# Australia May Import Houses

CANBERRA, May 14.—(Reuters)—Australia may have to import "prefabs" because of shortage of coal, steel, transport and labor needed for house building. A. W. Walsh, director of housing told a conference of Commonwealth and state housing ministers.

He said the additional cost of importing houses might have to be borne as part of the cost of building up the country's population.

## Battling Legionnaires Post First Win, Beat Singers

Legionnaires rose up from the depths of seventh place at Kingsway last night and walloped the previously unbeaten Singers to the tune of 8-3. Legion pitcher Al (Avalanche) Young stopped the clothiers on three hits—one of them Gord Pearce's two-run homer in the sixth—and struck out five.

Walks tore up the pea patch in a women's game with Burns, winning by a 14-3 margin. Ellie McIntosh hurled four-hit ball for Walk-Hits.

### HIT ATTACK

Legionnaires, 1948 provincial champions, clouted two singer pitchers for 14 hits, including four extra-base blows. They scored seven runs in the first three innings to give Young a comfortable lead, and added an additional tally in the fifth. Singers failed for three runs in the sixth but old "Avalanche" weathered the storm.

Shortstop Emory Long was the long ball hitter with Legion, socking a triple to centre in the second stanza. Catcher Al Miller had a prolific night at the plate as he produced a double and two singles in four tries. Ralph Planch and Jack Davis each collected two hits on behalf of the Legion cause.

Walk-Hits scored five times in the first inning to practically seal the victory before the women's game was many minutes old. Base knocks by Isabel Whitley and Bubbles Pugh, plus three Burns' errors, a walk, a wild pitch, and a powered ball manufactured those five runs.

### IT WAS EASY

After that, it was easy. Two runs in each of the third and sixth frames, and five more in the fifth, left the Burns squad reeling on the ropes. Bubbles Pugh and Wang-Long sparked the Walks hitting attack with two singles apiece.

Last night's triumph for the short-stops lifted them into a first place tie with Mortons. South Side girls are a half game off the pace.

## Jacobs Remains In Boxing Picture

CHICAGO, May 14.—(AP)—Mike Jacobs will continue as Madison Square Garden's boxing impresario in a consultant capacity and fighter Rocky Graziano is under contract to the Garden.

So explained John Fred Kilpatrick, Garden president, yesterday as he helped Joe Louis, retired heavyweight champion, observe his 35th birthday in a Friday the 13th celebration.

Kilpatrick was here to confer with the International Boxing Club representative of Louis, Arthur H. Wirtz and James D. Norris regarding a coalition which will give boxing its most fascinating monopoly.

## BOBBY LOCKE 'HOT' IN GOODALL GOLF

NEW ROCHELLE, N.Y., May 14.—(AP)—It began to look last night as though the \$15,000 Goodall golf tournament was invented as an annual benefit for Bobby Locke, the South African stylist with the magic putter.

He won it two years ago on his first try, finished second last year, and yesterday he was threatening to run away from his field of 15 rival professionals in the current event at Wykegl Country Club.

After three rounds of play, in which he had shot the par-72 layout in 71-67-68, Locke was far out in front with a score of plus-36. Two rounds remain to be played today and Sunday.

## Soccer Heads Silent On Newcastle Visit

For an organization that is promoting 'big league' soccer here on June 1, the Edmonton District Football Association is amazingly quiet. Hardly a word has been divulged by Tom Green and his associates about the Alberta all-stars who will play the touring Newcastle United eleven at Clarke Stadium within three weeks time.

However, there is a saving tale.

"Green is the father of speech, and any day now we can expect to see some brilliant publicity work on the game done by the EDFA."

A MEETING: Last night the local soccer body met to discuss the Newcastle match and decided that two teams—A and B—would play at Clarke Stadium next Wednesday night. It is assumed that the best players in this contest will represent Alberta against the guests of Tyndale.

Some Calgary athletes also are expected to grace the all-star lineup.

Likely manager for the Alberta team will be Martin Gilmour, president of Edmonton's North Side Union. Gilmour's clubs have been unequalled in provincial play since the war and unbeaten in Edmonton for several seasons.

It is believed that the team will be an excellent one, with a mix of local and imported talent. The team will be an excellent one, with a mix of local and imported talent.

Columnist Jack Scott, who writes an entertaining column for "The Bulletin," occasionally gives me a great big pain in the neck. That's because he did in yesterday's Bulletin about the slowness of human toil. He pointed out my neck and said that most high school students want white collar jobs after they finish their education.

He thinks it lamentable that "fewer and fewer school graduates are willing to follow in the simple crafts of their fathers."

Then he goes on to describe the soul-shrilling peace, joy and satisfaction that comes through working with the hands. He writes: "There is a kind of dignity in about such work that deeply appeals to me. It is honest, labor, physical, as well as mental."

Now if Mr. Scott had arrived at his conclusions about the joys of hard labor after many years as a hard carrier or stevedore Jack I would sit up and take notice.

But Scott discovered that man's toil is glorious with stunning suddenness after 35 years of white collar work. It came in a great flash of light after he built a wooden walk, a fence and a cement patio.

**SLOW AND EASY**  
He puttered around, sort of learning on the job, until the time in the morning when he would have been so lyrical on the joys of sweat and toil had

he built that walk under the stern eye of a long-haired woman who wanted the whole job cleaned up in a few hours.

Hard work can be a lot of fun if you don't have to do it. I'm sure I never worked harder than in building that walk, fence and patio in Mill Creek more than 30 years ago. We enjoyed each other's company, but for hours in the week, I was a slave. The man blazed down on our naked points. We loved it. Why? Because we didn't have to do it.

**SCOTT IN OVERALLS**  
I'd be willing to wager a national sum that our erstwhile laborer Jack Scott down at the employment office came Monday morn, dressed in coveralls begging for a chance to display his new-found skill with hammer and saw.

I'm not denying the satisfaction of working with the hands. But I'm trying hard to remember all the persons I know who graduated from manual labor to white collar jobs and then voluntarily returned.

By all means Mr. Scott go on being the grand toil builder in the back yard. Putter around with mixing cement and painting these fences a pretty green. But please don't fall into the error of recommending hard work to other people as a means of earning a livelihood.

I remember a leading executive who expressed great concern about what the working people would do with their leisure time if toil were abolished. He should have known, because he spent all his summer afternoons on the golf course.

THRILLS galore will be in store for everyone at the Shrine Circus which comes to Edmonton on May 23. Archa and her elephant and dog act are only one of the many top-notch acts coming with Orin Davenport's famous troupe. Circus is sponsored by Shrine and Rotary clubs of Edmonton.

## Mud School Draws Enthusiastic Response

University of Alberta is in the midst of its own "oil boom."

Officials of the University's department of extension have been flooded with applications from oilworkers and oil companies to take a special Mud School for oilmen to be held on the campus May 16 to May 21.

According to extension officials enthusiastic response to the course has brought in 120 applications from 36 oil companies in Alberta. One company alone wanted to register 21 of its employees.

Already plans are under way to set up a second course with tentative dates set from May 30 to June 11. Under present plans the courses have accommodations for only 60 members in 12 daily shifts, one from 8 a.m. to 2 p.m., and the second shift from 2 p.m. to 10 p.m.

The only course of its kind ever to be held in Canada, the Mud School will give roughnecks, derrickmen, drillers, superintendents and all types of oilmen special instruction in the principles and practice of drilling, fluid handling and control.

First session of the Mud School will be opened 9 a.m. Monday with a welcoming address by Dr. John Macdonald, dean of the faculty of

## Broken Jaw Has Court Sequel Here

House Owner Loses Case Against Would-Be Roomer

Mystery surrounds the case of Mr. Powers' broken jaw. In police court yesterday, William B. Powers, 1023 91 street, charged that Harry M. Asher, 1023 91 street, broke his jaw in a sudden, unprovoked attack.

According to Powers he investigated a noise in the hall outside his suite and was attacked by a man he didn't know from a load of hay.

"I opened the door and bang. I got it—broken jaw," he said. He declined, on the other hand, to contend that he was a peace-loving citizen merely seeking a room for the night. He entered the 91 street premises thinking it was a rooming house. Suddenly, a door flew open and Powers burst out, eyes flashing and fists flying.

## Pop Concerts Nearly Ready

### Series of Five Planned For This Summer Season

First summer "pop" concert of fine music is scheduled for June 1, John Farin, superintendent of the Edmonton Recreation Commission, has announced.

Low Hupin, who has conducted the summer concerts during their past two years, is expected to begin work on the "pop" concert next week.

City has supplied \$1,000 with which to finance the concert.

**CHARGE TO BE MADE**

A charge will be made for each concert putting the "pop" concert on a break-even basis, as they can carry their own weight.

Mr. Farin and Mr. Hupin are hopeful the "pop" series may develop into a "Theatre Under the Stars" featuring Edmonton talent and providing summer entertainment on week nights.

**ON WEEK NIGHTS**

Concerts will be held on week nights this season. They will probably be in the Siles Pavilion at the Exhibition Grounds, since there has been no handover and Clarke Stadium is not wholly satisfactory.

## Recent City Festival Draws Complaints, Advice

By Dick Sherbennik

This has been a difficult column to write—not because of misfortune visited upon me lately by Erna Sack lovers, but because of the gravity of my subject.

That is, the recently completed Edmonton District Music Festival.

**GENUINE DISSATISFACTION**

It hasn't been just the petty and which follows any competitive event, but it is the expression of genuine dissatisfaction with the Edmonton music world.

**MUSIC**

There are many ramifications to the situation, many complaints and many points of view. Solutions to these problems are even more difficult.

## Vri-Teens Elections Nearly Set

By DON COLLINS

Nominations have started to roll in for the coming Vri-Teens elections.

Last week, nominations were received for positions of vice-president, secretary, boys' sports representative, girls' sports representative, and publicity manager.

It is not definite whether elections will be held this week or next.

Originally scheduled for April 30, they were postponed because of lack of candidates.

There are still some positions open which may be decided to hold balloting and let those elected pick the other officers.

His gang! Here's another stack of wags you can swing through. Played by your favorite artist, it's a red hot arrangement!

But let's simmer down. Comes Don Day with "No Man Is An Island." It's nice and soothing. Backing of Columbia disc is "Imagination." Now haunting can you get.

Page Cavanaugh Trio also has a for the former appealing disc for RCA Victor. It's sung in the up-tempo and intimate manner. Plattermate is "You Say the Word." This album is a musical comedy, "As the Girls Go." It's sung with plenty of rhythm.

If you like Monks Lewis, you'll also like this platter, "I Don't Hang Around" on a Decca disc. "The Tragic Story of the Red Leaves" is the flipper. The Stardusters held Monks with the vocal on both sides.

From the much publicized production "South Pacific" we have "In Love With a Wonderful Guy." Frank Warren takes the vocal. Her voice taking on a feverish, almost delicious pitch. You'll like her. This disc is labelled by Victor.

You'll light up and listen when you hear "Memphis Blues." It's Dixieland jazz by the Dixieland Jazz Group. Conductor is Henry Levine. Flipper on this disc is "The Louis Blues." Lena Horne takes the vocal. You'll find lots of expression in her voice. Man that lady can really put over the blues. This platter also boasts a Victor label.

## Divers Will Seek Art Treasures

French Count, 2 Amateurs  
To Hunt Carthage Relics

ST. LOUIS, Mo., May 14.—(UPI)—A French archaeologist and two explorers from St. Louis are planning an expedition to explore the bottom of the Mediterranean for ancient art treasures which have lain there for more than 2,000 years.

Count Jean René de Broc and the amateur explorers, Mr. and Mrs. Vincent Palmer, hope to begin their quest within a few months. The count said the art treasure consists of statues, columns, and other objects of the Roman Empire which were carried off by the Romans after the great battle of Carthage after the great Punic War about the year 264 B.C.

According to Count de Broc, the Roman conquerors, before the battle, had two great armies of about 100,000 men each. ## Planting Garden Is Fun And Interesting Work

Dear Tawasi:

Little Chief has been a mighty busy fellow this week helping in the garden and taking time out to go swimming. He even managed to squeeze a fishing expedition into his evening week.

I wonder how many of you Tawasi members have been helping your Mother or Dad plant the garden. Already some people in Edmonton have little pea shoots sprouting above the ground.

Now that all the city plots are open for the summer months, Little Chief thinks that he will be spending his way to the swimming pool and some there is capable supervision watching over a safe game. It's healthy, too.

Little Chief fishes. Just like every other young fellow, he likes to catch some fish. A few days ago he was in the garden stream on some land, and he caught a few fish. He was very happy when he caught them.

## Club Mail

The mail bag was almost full every day this week with interesting letters from Tawasi from all parts of the province. But there's still room for more letters, so who won't write about your hobbies or favorite games?

Phyllis Vyner Shandorf, of Wilfrid, sent us a wonderful letter. She had printed without a single mistake. Since Phyllis can't walk she gets a lot of enjoyment from coloring the Saturday picture in the Bulletin and listening to the radio.

Three stars. This fine lady is the pet of the Junior League of Wilfrid. She who goes to King Edward's school is a kind, sweet girl. She has a lot of friends and she still finds time to help her mother wash dishes. She even fills the wash tubs on Monday morning.

Three stars. Ronald Swanson of Melrose wrote a letter all about his sister Lynne and himself. Lynne, who was five years old a few days ago, likes to gather the eggs. Ronald is a pretty little fellow since he has his own baby and a new bicycle which he's learning to ride.

## How to Make Pen Wipers

How would you like to learn to make a pen wiper? It's lots of fun and pen wipers are useful things to have around, especially when you're going to school.

Take about ten different pieces of the scrap cloth your Mother has in her rag bag and cut each piece so it is four inches square. That means that it is four inches long and four inches wide.

Now take a big button and a needle and thread. Sew the button through all the pieces of cloth that you've piled neatly in one pile.

That's all there is to it and you've got a useful gadget.

## Dawson City Lacks Eggs

Dawson City, famous Yukon gold-rush town, is short of eggs and no planes have landed on its soggy airfield for 10 days, but the residents are not much worried about it.

A radio-telegram report reaching here yesterday said there was no general food shortage and no suffering. Planes had been unable to land for 10 days due to the late but spring conditions at the airport. This had resulted in delayed mail and a shortage of fresh eggs which normally are flown in at regular intervals.

Meanwhile the river ice was still holding and guessers in the break-up time awaited, said to be worth about \$12,000 this year, were anxiously waiting for the ice to go out.

## Two Kittens Want Homes

How would you like to have a handy sewed kitten for a pet? Some people who live on the south side have two little kittens that they want to give away.

If you want one of them write a letter to the Tawasi Club, Edmonton Bulletin. It would be fun to own a kitten, wouldn't it?

## Follow the Adventures of DICK TRACY Daily

THE JEWELS FOUND IN THE BONE ARE IDENTIFIED AS BEING THE SAME ONES INVOLVED IN A \$500,000 ROBBERY SEVERAL MONTHS AGO. DICK TRACY AND SAM CATCHEM ARE CALLING AT THE HOME OF THE VICTIM.

AS I RECALL THAT CASE, YOUR AUNT WAS SHOT TO DEATH IN HER BEDROOM THE NIGHT OF THE ROBBERY.

WHEN WE FOUND HER SHE WAS LYING NEAR THAT WINDOW.

YES, THAT WAS THE LAST PHOTOGRAPH OF HER.

YES, AUNTIE WAS VERY MUCH OVERWEIGHT AND HAD BECOME ALMOST FANATIC IN HER DETERMINATION TO REDUCE.

SHE TRIED DIETING. LATER SHE ENROLLED IN A CORRESPONDENCE COURSE IN REDUCING.

YEAH, HERE ARE SOME OF THE LESSONS, TRACY.

AND AT "PEAR-SHAPE'S" OFFICE. "PEAR-SHAPE" I WISH YOU'D QUIT CARRYING ON A PERSONAL CORRESPONDENCE WITH YOUR PUPILS. JUST STICK TO THE REDUCING LESSONS.

NELLIE, YOU'LL NEVER MAKE A BUSINESS WOMAN. YOU'VE GOT TO FOLLOW UP EVERY POSSIBILITY TO MAKE MONEY.

WHY, RIGHT HERE I'VE GOT ANOTHER DAME THAT LIKES MY LESSONS SO WELL SHE WANTS ME TO BE A GUEST AT HER SUMMER HOME.

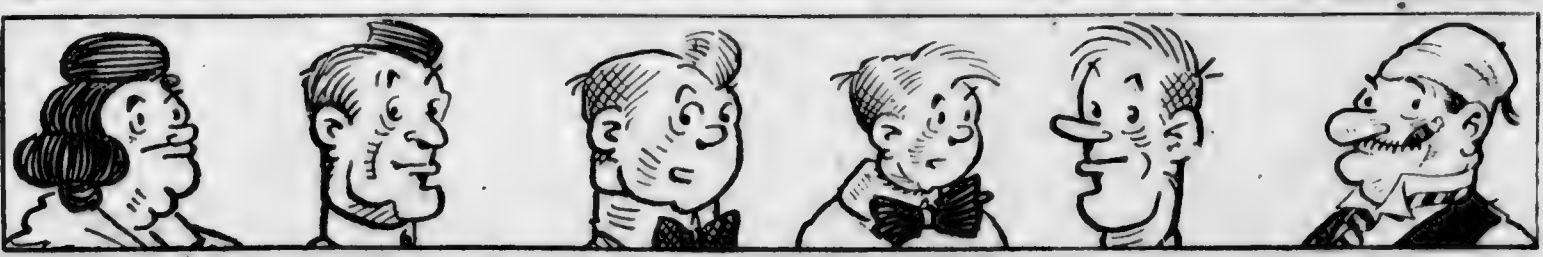

A ROLL OF WOVEN WIRE? WHAT IN THE WORLD IS THAT FOR?

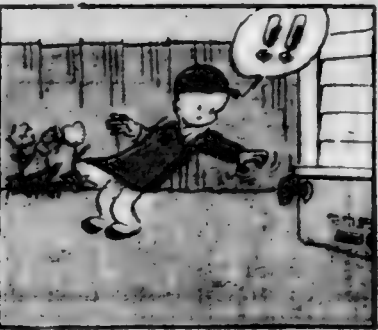

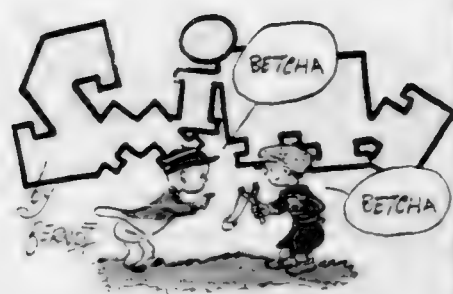

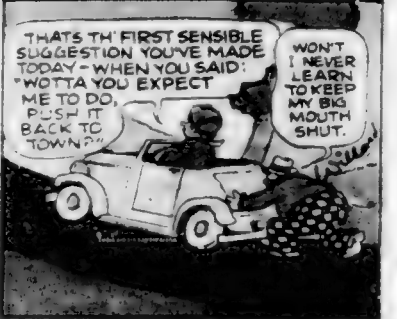

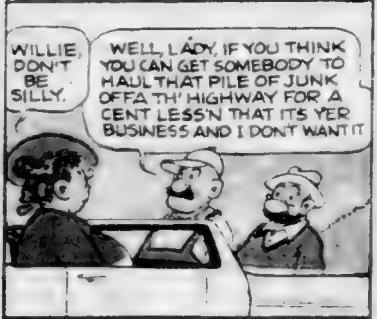

I ORDERED IT. I'M GOING TO MAKE SOME SPECIAL GUARDS FOR OUR OFFICE DOORS.

## ON THE GO AGAIN

THE quart glass fruit jar which the Teenie Weenies use for a greenhouse was a safe and convenient place to keep the Teenie Weenie babies from wandering off. It was bright with sunlight and there was plenty of sand for the youngsters to play in. When the babies were shut up in the fruit jar the Teenie Weenie women could go about their household duties without the constant watchfulness that active babies need to keep them from wandering away.

However, early plants had to be raised in the greenhouse for transplanting into the Teenie Weenie garden and the fruit jar had to be given up as a nursery, for young plants do not thrive well with active babies about.

Someone had to keep a constant watch on the children, for the little mites can disappear with amazing speed. Many dangerous things might happen to Teenie Weenie babies while wandering around. A strange bird might mistake them for fat bugs and gobble them up, but even more dangerous would be an encounter with a toad.

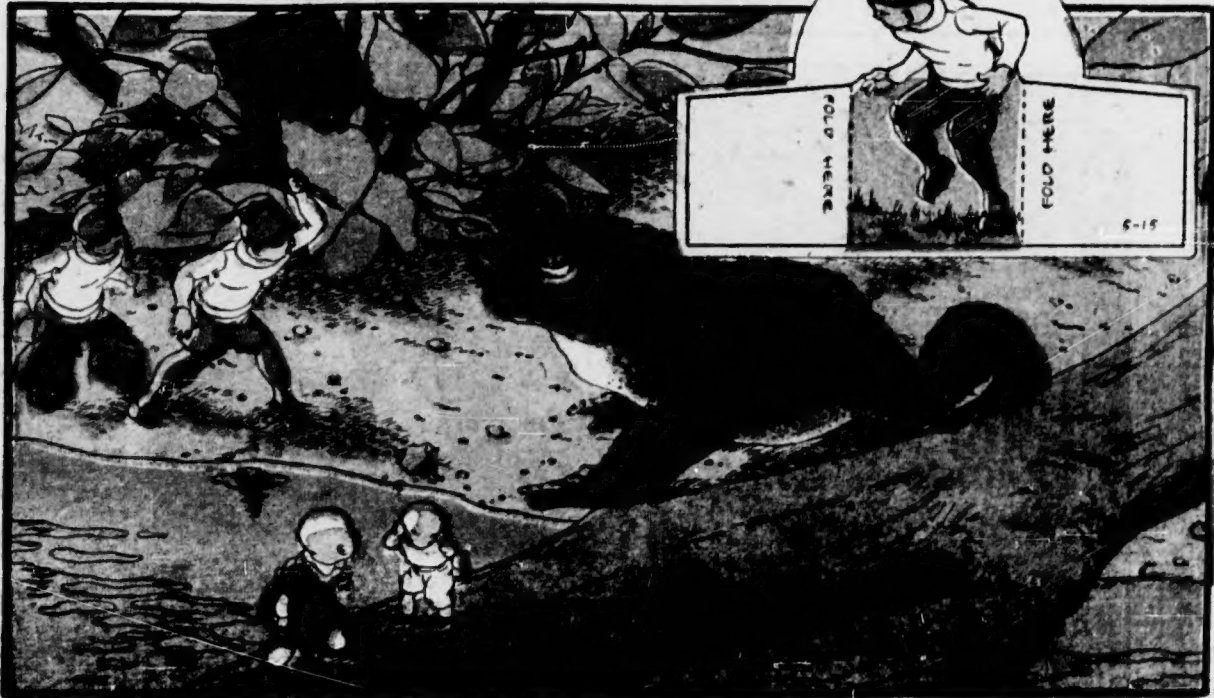

Toads are not harmful to grownup Teenie Weenies, but toads like worms and bugs. A Teenie Weenie baby is about the size of a grub worm and would be just as welcome to a hungry toad.

The Teenie Weenie women had taken great pains to explain the danger and horror of meeting a toad to Nipper, the eldest of the Teenie Weenie babies. Nipper had never seen a toad and all their advice made no impression on his small mind.

One afternoon the women decided to paint

the shoe house dining room. Paint and babies are a bad combination and in order to carry out the work successfully it was decided to tie up the youngsters. Being a pleasant day, the children were tied securely with several inches of strong thread to the stem of a rose bush.

The lust for travel makes nimble fingers. In no time Nipper had unfastened the thread and, taking his tiny brother, Zero, by the hand, had set off for the creek. The babies had just climbed

out onto a stick that lay in the water when Nipper, hearing a thud, turned to see a big toad staring at them.

All the warnings against toads he had heard pepped into Nipper's mind and he bellowed so loudly for help he was heard by Gogo and the Turk, who came running to the spot. They chased off the toad and carried the babies to the shoe house, from where, it has been reliably reported, the youngsters seldom stray.

Synopsis: PRINCE VALIANT CANNOT RETURN TO CAMELOT AND ALETA WHILE ILLWYNDE CASTLE IS WITHOUT DEFENDERS. YET HE CAN GET BUT FEW RECRUITS FOR ITS GARRISON BECAUSE OF ITS EVIL REPUTE.

EVER SINCE ENTERING THE CASTLE SIR CADOC HAS BEEN TRYING TO MAKE AMENDS TO DARK-EYED GWYNN FOR KNOCKING HER FROM HER HORSE. IT IS A PLEASANT TASK AND HE WISHES TO SPEND THE REST OF HIS LIFE AT IT.

SO HE IS NOT PLEASED WHEN VAL ORDERS HIM TO CAMELOT FOR A TROOP OF ARCHERS AND FOOT SOLDIERS. HOT WORDS ARE SPOKEN.

TEMPER AND GOOD JUDGMENT ARE TWINS; WHEN ONE IS LOST THE OTHER GOES WITH IT. A DUEL IS INEVITABLE.

OOM FOOVYT CAN BE HEARD THINKING OUT LOUD. "TOO BAD! BECAUSE OF A FIT OF PEEVISHNESS ONE OF THESE LADS MUST DIE! AND WE NEED STOUT ARMS, TOO! NOW I COULD FIND RECRUITS EASILY!"

VAL HALTS. "IT IS USUALLY SOME HUMBLE IDIOT LIKE YOU WHO COMES UP WITH A GOOD IDEA WHEN ALL ELSE FAILS. SPEAK UP!"

OOM SHOWS THE FEW FRIGHTENED RECRUITS THEIR DUTIES, THE CASTLE AND THE ARRAY OF MASKS AND COSTUMES USED TO FRIGHTEN AWAY INTRUDERS.... HE ALSO SHOWS THEM MAGIC.

WINNIE THE WITCH AND OOM CLAIM TO BE GREAT WIZARDS BUT DO THEIR TRICKS SO CLUMSILY THAT EVEN THE SIMPLE SERFS CAN SEE THROUGH THEM. IT IS VERY FUNNY.

NOW OOM AND WINNIE GO ON A TOUR OF THE FIEF, GIVING EXHIBITIONS OF MAGIC AND TAKING WITH THEM THE SERFS WHO KNOW THE SECRET OF THEIR TRICKS.

NEXT WEEK - The Sacrifice.
